Feb 2020 - Oct 2021

Projects

Here I am attaching the links of my four frontend project. But it should be mentioned that I am learning react js. After finishing react js, I will start to enrich my knowledge by learning backend development. But I have interest on AI, Machine Learning and Data Science. I am continuing my learning process on AI and ML. With my learning I have worked on two small projects. Beside I am working on "Weather Prediction" project now.
